## **BCyber signs agreement with the Ultimate Access Education Institute to deliver a groundbreaking new cybersecurity program to accountants and finance professionals**

**Sydney, Australia – 3 May 2021 - BCyber Pty Ltd (“BCyber”)** a privately owned Australian based innovative cyber risk mitigation company, today announced a groundbreaking strategic partnership with Dubai based Ultimate Access Education Institute. The partnership will produce and deliver cybersecurity training solutions targeted specifically at accountants and finance professionals in the EMEA and Asian regions.

The growth of remote workforces has seen the need for cybersecurity knowledge and understanding amongst this group of professionals grow exponentially. With the accountant and finance professionals playing a pivotal role in a businesses success, they now need to expand their knowledge base and become conversant in cybersecurity ensuring they remain ahead of the cybersecurity security challenges facing business.

This highly curated cybersecurity program provides insights for accountants and finance professionals enabling them to become additional human detection points in the event of cyber threats and enabling their proactive contribution to their businesses cybersecurity risk management capabilities. “By taking our online training courses through the Ultimate Access Education Institute participants will learn strategies and methods to help them safeguard their business and succeed in today's job environment. It's time to realise that cybersecurity is a business threat and not just a technology problem, this program aims to arm finance and accounting professionals with the capabilities to meet that threat” said Graham Chee, Managing Director of BCyber.

The course's practical focus will arm accountants and finance professionals with understanding of:

- The current cyber threat ecosystem
- Cybersecurity governance frameworks
- Cybersecurity Tools and Techniques - including Robotic Process Automation (RPA) etc
- Cyber risk reporting
- Cyber policies
- Cyber insurance - the “do's and don't”

**-ENDS-**

This announcement was approved for release by Graham Chee, Co-founder/Managing Director of BCyber Pty Ltd and Anju De Alwis Managing Director of Ultimate Access education
